

Mostafa Emad

Flutter Mobile Developer | Dart | Firebase | REST APIs

Software Engineering Student

PROFESSIONAL SUMMARY

Mobile Application Developer with hands-on experience building cross-platform mobile apps using Flutter and Dart. Completed over 90 hours of practical training through the National Telecommunication Institute (NTI). Skilled in designing responsive interfaces, integrating REST APIs, and using Firebase Authentication and Firestore for real-time applications. Focused on delivering clean, efficient solutions and high-quality user experiences.

EXPERIENCE

National Telecommunication Institute (NTI) | Mobile Application Developer Trainee

Aswan, Egypt | Nov 2025 - Present

- Built mobile applications using Flutter and Dart with a solid understanding of OOP principles.
- Designed responsive UI screens including login, registration, splash, home, list, and grid layouts.
- Developed practical apps such as a BMI Calculator and a To-Do List with full CRUD functionality.
- Integrated REST APIs and implemented Firebase Authentication and Firestore for real-time app features.
- Developed a real-time chat application supporting both text and image messaging.
- Tested and prepared applications for deployment, including Google Play Store setup and launch.
